C. F. POLLARD,

Manufacturer of and Dealer in

Treadle, Portable and Ship Grindstones.

ALSO,

Sandstone, Freestone and Soapstone

Heel Wheels & Hand Heel Stones.

Special attention paid to making Stones for Moulding Mills.

Rear of 39 Central Ave.,

LYNN, MASS.

To parties desiring Illustrations on Wood of Stoves, Buildings, Towns, Machinery, Landscapes, Portraits, Animals, Bill Heads, Newspaper Headings, Show Bills, Lodge Seals, Autographs, Artistic Monograms, Labels (plain or colored), Catalogue and Ornamental Work of any description, the undersigned would state that he is prepared to furnish Engravings, of the above or similar character, from Photographs or Sketches, Written Descriptions or Paintings; also, Electrotypes or Copper Duplicates furnished. The utmost promptness will be guaranteed in filling orders of any size or quality, as good and cheap as New York or Boston. Color-blocks engraved on type metal when possible—they do not require to be electrotyped, and give a perfect register. I make a specialty of Artistic Reproduction by Wood Engraving of College Book Illustrations, Jewelry and Fine Machinery. For illustrations of such manufactures, the wood cut secures a superior beauty and finish, and the electrotypes which can be produced from it "work" handsomely. I will give estimates for all classes of work. Orders by mail or express promptly attended to.

W. A. RICHARDS, 98 Weybosset St., Providence, R. I.

1614.

The Dutch built a fort at Manhattan (near New York.)

Captain Smith made a fishing voyage to the northern part of America. Made a chart of the coast, which he presented to Prince Charles, who named the country New England.

Settlements commenced by the Dutch at Manhattan, now New York, at Albany, and in New Jersey.

1616.

Capt. Dermer was the first Englishman who sailed through Long Island sound.

Tobacco first cultivated by the English settlers in Virginia.

1617.

Pocahontas died in England, aged 22.

1618.

A great pestilence destroyed most of the Indians from Narragansett to Penobscot.

1619.

Twenty thousand pounds of tobacco exported from Virginia to England.

1620.

Plymouth settlers arrived at Plymouth Mass., December 22d.

Slavery first introduced into Colonies by the Captain of a Dutch vessel, who sold 20 negroes at Jamestown, Va.

1621.

Edward Winslow and Susannah White married—the first Christian marriage in New England.

1622.

The Indians massacred 349 of the Virginia colonists, March 22d.

1623.

First settlement of New Hampshire, at Dover, and at Little Harbor.

George Sandys, of Virginia, translated Ovid's Metamorphosis—the first literary production of the English colonists in America.

1624.

The first cattle brought into New England by Edward Winslow, agent for the Plymouth colony.

1627.

Delaware and Pennsylvania settled by the Swedes and Fins.

1629.

African slaves first brought into Virginia by a Dutch ship and sold to colonists.

Peregrine White, the first English child born in New England.

1630.

Charleston, Boston, Watertown and Dorchester settled by Gov. Winthrop.

July.—First house built in Boston.

Gov. Winthrop first abolished the custom of drinking healths.

John Billington executed for murder—the first execution in Plymouth Colony.

1632.

Magistrates of the colony of Massachusetts first chosen by the freeman in the colony.

The magistrates of Massachusetts ordered that no tobacco should be used publicly.

The general court at Plymouth passed an act that whoever should refuse the office of Governor should pay a fine of £20, unless he was chosen two years successively.

Warranted to be the easiest and quickest working, and doing the largest range of work of any machines for similar work.

PRICE FROM $100 TO $300,

For further particulars send for Price List.

Please give your address plainly.

DAVIS' HYGIENIC REFRIGERATOR economizes the ICE and utilizes the ice-cold water in cooling the Provision Chamber, the cold water also serving an important sanitary purpose in absorbing the unwholesome gases that collect in a Refrigerator. From actual weighing through one season we find that *less than one-half the ice is used*, and at the same time gives a more even temperature in the provision chamber, consequently keeps provisions better. This Refrigerator has been tried in many families, with the best of satisfaction, as certificates will show, for which please call on the Manufacturer,

A. Davis, No. 20 Middlesex St., Hills' Block, Lowell, Mass.

State Capitol, West Virginia.—The Capitol was changed temporarily from Charleston to Wheeling in 1874. The City of Wheeling offered to erect a building with ample accommodations, giving the use of it free as long as the State would occupy it as a Capitol. Upon the acceptance of this generous offer the City erected the above building. It was completed in July, 1875. The building is 200 feet in length, each wing being 50x112 feet. The height of the main tower is 150 feet. The building cost $95,000.

(Patented November 13, 1877.)

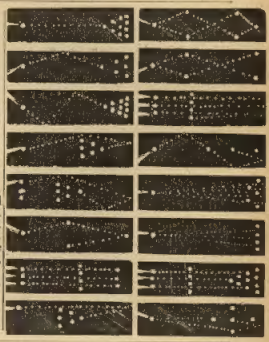
THE "BON TON" GAME

is adapted for the artist with the cue as well as the amateur; adapted to all places of amusement. The cuts show how the pins are placed. Over sixty different games can be played. Size 1x3 to 8x10 feet. Prices from $2 to $200. The largest tables have a rubber cushion. The bed covered with billiard cloth. The pins are polygonal—the sides numbered. The game is to count the figures on top of pins upset, or the pins.

For further information relative to tables, State or County rights, address the patentee,

JOHN BROWN,

105 N. MAIN ST., PROVIDENCE, R. I.

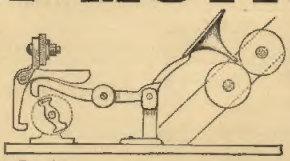


STOP MOTIONS

FOR **Drawing Frames.**

12,000

IN OPERATION.



FOR **Railway Heads.**

934

SOLD TO NOV. 1, '77.

I have this inducement to offer, viz:

More Yards and Better Cloth at Less Cost from a Bale of Cotton, Saving Sufficient to Pay the Entire Cost in One Year.

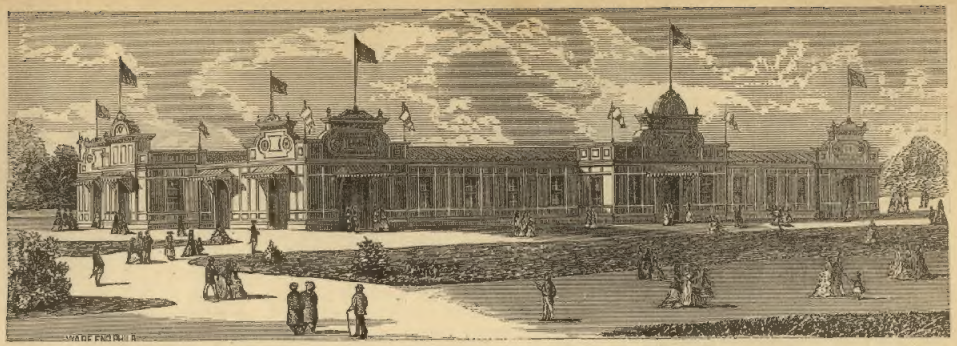
I have an anti-friction weight clip, weighting calendar rolls on drawing frames and railway heads. Calendar rolls nearly worn out may, by the application of this device, be run as long as new ones. Also, an improved lever and weight keeping the numbers on railway heads—a great advantage.

Trumpet clearer and condenser for cotton cards, taking out selvage waste, leaf, sand, dirt, &c. Send for Circular.

Improved cut roll for power looms, winds the cloth snug and square, a cure for oily, dirty selvages—best thing since the loom was made.

Automatic mechanism for closing windows when it rains. By mail, 50c.

For further information write to **D. W. HAYDEN, 2 Lafayette St., Providence, R. I.**



Carriage Building, Centennial Exposition, Philadelphia.—It is built of wood and iron, and lighted principally by skylights. It is 345 feet long and 280 wide. The exhibits by American manufacture number over one hundred; English, 45; France, 36; and Germany and Italy each one. Was bought by R. J. Dobbins at public auction for $4,100.

Repairing Neatly and Promptly Done.

14

City Hall, Boston.—The corner-stone was laid on the 22d of December, 1862—the anniversary of the landing of the Pilgrims at Plymouth. The amount first appropriated was $160,000, but before the building was occupied the actual cost was more than half a million dollars. The building was completed and dedicated on the 18th of September, 1865. The tablet in the wall, back of the first landing, perpetuates in beautifully worked marble, the statement that the dedication took place on the 17th of September. This day would have been highly appropriate for the ceremony, being the two-hundredth and thirty-fifth anniversary of the settlement of Boston, had it not fallen on Sunday. The ceremony was accordingly postponed until the following day.

Chas. French's
Business College.
650 Washington Street,
Boston.

This, one of the oldest Business Colleges in the United States, enjoying as it has, for twenty-nine years, the confidence and patronage of the merchants of Boston, continues to afford a more complete and practical course of

COMMERCIAL STUDIES

than can be found at any similar institution.

THE BUSINESS DEPARTMENT

provides every facility for thorough preparation for the active duties of the office, counting-house and bank; embracing most thorough drill in Penmanship, Business Arithmetic, Book-keeping, Correspondence, Business Papers, Banking, Business Law, etc.

THE NAUTICAL DEPARTMENT

provides an ample and practical course in Navigation, including use of instruments and charts.

The fact that many of Boston's merchants are graduates of this College, and that hundreds of others who were here educated are filling positions of honor and emolument in almost every city of the Union, is a sufficient guarantee of its standing and advantages.

Evening Sessions from 7 to 9.

Application for admission received at the office from 9 A. M. to 4 P. M.; 7 to 9 evenings.

Faneuil Hall, "the Cradle of Liberty."—This Building was presented to Boston by Pete Faneuil. It was erected in 1742, destroyed by fire in 1761, and immediately thereafter was rebuilt by the vote of the town. In 1805 it was enlarged to its present size, and until 1822 all town meetings of Boston were held within its walls. The hall is 76 feet square and 28 feet high. It is never let for money, but is at the disposal of the people, whenever a sufficient number of persons, complying with certain regulations, ask to have it opened. By a provision in the charter of Boston, it is forbidden the sale or lease of the hall.

Art Exhibition Hall, Centennial Exposition, Philadelphia. [illegible] used in the centennial [illegible]. The building is 365 feet in length 210 feet in width and 59 feet in height. The dome is 150 feet from the ground. It is surrounded by a gallery and is of a unique design. It terminates in a colossal bird, from which the figure of Columbia rises with protecting hands. At the four colossal statuary stands at each corner of the base of the dome. These figures typify the four quarters of the globe. The building will remain as a permanent exhibition hall on the grounds. The cost of the building was $1,500,000.

TEETH,

$8, $10, $12 and $15 per set; Filling, 75c. to $1.00.

111 ARCADE,

Rochester, N. Y.

Main Exhibition Hall, Centennial Exposition, Philadelphia. This is in the form of a parallelogram, extending east and west 1,880 feet in length, and north and south 464 feet in width. The frame work is of iron. The foundations consist of 672 stone piers. The larger portion of the structure is one story in height, and elevated in the main entrance upon the outside at 45 feet above the ground, the interior height being 70 feet. Upon the corners of the building there are four towers 75 feet in height, and between the towers and the central projections or entrances there is a lower roof introduced, showing a cornice 24 feet above the ground. Small galleries, or galleries of observation, have been provided in the four central towers of the building, at the heights of the different stories. The edifice cost $1,420,000, exclusive of drainage, water pipe, plumbing, painting and decoration. It was sold at public auction, at the close of the exhibition, to the Permanent Exhibition Company for $250,000. It is to remain on the grounds as a Permanent Exhibition Hall.

VERMONT LIFE INSURANCE CO.

OF BURLINGTON, VERMONT.

Incorporated October 20th, 1868.

The Company has always maintained a handsome surplus above every liability. Surplus as regards policy holders $105,000. The Company does a legitimate, non-forfeiting business.

Office: Company's Building, Opposite Post Office.

LOCAL AGENTS WANTED.

Ohio State Building, Centennial Exposition, Philadelphia.—Is built of Sandstone, furnished by the proprietors of the various quarries in Ohio. The building is two stories, with high roof. It is 60 feet wide and 58 feet deep, including the front porch. A veranda 12 feet wide runs on each side and in rear of the building.

A. McLAREN,

Breeder of

Games and Game Bantams,

MEADVILLE, PA.

P. O. Box 1586.

Arkansas State Building, Centennial Exposition, Phila. This building is a pavilion, with offices and retiring rooms, covering an area of over 5,000 square feet. The shape of the building is octagonal; the columns are placed in a circle, 82 feet in diameter, the ceiling is spherical, and an octagonal dome is placed on the top of the roof; the top of the dome is 50 feet above the floor line. The roof construction is of iron; the sides of wood and glass.

The Brilliant, Self-Shining Stove

POLISH.

No Brush. No Mixing.

No Water. No Labor.

No Dust. No Odor.

Use a damp woolen rag, dip in the box, apply to the stove, then rub with a dry woolen cloth; this will produce the

MOST BRILLIANT GLOSS.

The beauty of this Polish is, it will take off all grease and rust. It is more durable than any other, saves time and labor, and will not burn off.

Particular Attention given to Funerals in transit Through Jersey City. Orders by Telegraph Promptly Filled.

1863.

was commenced by Gen. Bragg in the morning and continued all day. At night both armies occupied nearly the same position that they did in the morning. On the next day the battle was renewed by the Confederates and lasted until dark. The Union army was defeated and driven back to Chattanooga. The Federal loss was about 1,800 killed, 9,500 wounded, and 2,500 prisoners.

Oct. 9.—Wheeler's Confederate cavalry defeated with considerable loss at Farmington, Tennessee, and again near Shelbyville.

Oct. 20.—The departments of the Cumberland and Mississippi were consolidated and placed under the command of General Grant. Gen. Rosecrans removed and Gen. Thompson appointed in his place.

Nov. 5.—Brownsville, Texas, captured.

Nov. 25.—The Confederate army under Bragg was badly whipped near Chattanooga, losing about 6,000 prisoners and 52 guns. The Union loss was between 3,000 and 4,000 in killed and wounded.

Nov. 29. An unsuccessful attempt of the Confederates to carry Knoxville by storm.

Nov.—The first Fenian convention assembled at Chicago. According to tradition the Fenians or Finians were a national militia established in Ireland by Fin or Fionn, the son of Cumbal.

Dec. 4.—Gen. Longstreet commenced the siege of Knoxville, Nov. 17th. On the 29th there was a severe fight, in which he was defeated. This, with the defeat of Bragg at Chattanooga, compelled Longstreet to raise the siege.

1864.

Feb. 1.—President Lincoln orders a draft for 500,000 men.

Feb. 9.—A large number of prisoners, including Colonel Streight, escaped from Libby Prison, Richmond.

Feb. 15.—Gen. W. T. Sherman with his command arrived at Meridan, Miss., on his great raid into the heart of the enemy's country. Returned to Vicksburg with immense booty.

Feb. 20. The advance into Florida of the Union forces about 5,000 strong, under General Seymour, was repulsed near Olustee with a loss of 1,200. Confederate loss, about the same.

Feb. 22.—A heavy reconnoitering force sent out from Chattanooga by General Grant, met and defeated the enemy at Tunnel Hill.

Feb.—Kilpatrick and Dahlgren's raid on Richmond.

March 8.—Gen. Grant was formally presented by the President with his commission as Lieutenant General, and on the 12th was assigned to the command of the armies of the United States.

March 15.—The Union forces under General A. J. Smith captured Fort De Russey, Louisiana, on Red river, with 325 prisoners and an immense amount of ammunition and stores.

March 25. About 5,000 Confederates

Post Office, Boston.—The corner-stone was laid on the 16th of October, 1871. Our sketch shows the post office as it is. It has a front of over two hundred feet on Devonshire street, occupying the whole square between Milk and Water streets, and it is, sooner or later, to be extended to Congress street. The government has never before owned the building in which the Boston post office was located. The upper stories of the new post office are occupied by the sub-treasury. The building was completed and occupied early in 1875. The entire cost of the government exceeded $3,000,000.

DR. JOSEPH FABIAN,

Practical German Physician,

228 Vine Street, Philadelphia, Pa.

Twenty-eight years' practice in diseases of both sexes, effects of youthful imprudence, debility, loss of manhood, &c.

Young men conscious of their private faults and errors, the consequences of which may show themselves in bodily weakness, weariness of life, impotence, and finally resulting in consumption, may avail themselves of my advice with perfect confidence. There are thousands of such unfortunate men who had their former good health restored by my advice and care, though suffering from the consequences of wrong treatment, or have been pronounced incurable by other physicians.

Patients abroad can be successfully treated by describing their symptoms in English or German. Terms moderate, advice free. Address

Syracuse, N. Y.

Pennsylvania Commissioners' Building, Centennial Exposition, Philadelphia.—It is a wooden gothic building, 98 feet by 55 feet. It is surrounded by a tasteful piazza, six feet wide, and is ornamented with a central tower flanked on each side by two smaller octagonal towers. The height to the eaves is 22 feet, to the peak of the roof 39 feet, and to the top of the central tower 65 feet. The main hall is 30 by 50 feet, on the right of which are two rooms 20 by 20 feet each, intended for ladies' and gentlemen's parlors, beautifully fitted up, and having dressing rooms and other conveniences attached On the left are two committee rooms, 20 by 27 feet. The State of Pennsylvania appropriated $15,000 for its erection. It is the headquarters of the Pennsylvania State Commission.

Photographic Studio, Centennial Exposition, Philadelphia, Pennsylvania.—It is a very handsome structure of wood and plaster, and is of a highly decorative style of architecture. It is one story high, situated on a terrace three feet above grade. The front portion of the building is reached by a wide stairway, and comprises a wide vestibule and reception room, and on each of the latter a gallery 22 feet square for the exhibition of photographs. There are public and private offices, dressing rooms for ladies and gentlemen, and all the appurtenances of a first-class photographic gallery on a large scale.

SOLE MANUFACTURERS OF THE

PATENT CLINCHING SCREW FOR BOOTS AND SHOES.

Factory at Milford, Mass. **Boston Office, 111 High St.**

All genuine Clinching Screwed Boots and Shoes, stamped thus ——— Take no others, as they are imitations. Try a pair, they will please and save you from twenty-five to fifty per cent. Boots and Shoes having their soles fastened with the above famous Screw, are furnished by all first-class dealers.

Swedish School House, Centennial Exposition, Philadelphia.—This building was erected by the government of Sweden It is composed entirely of wood, either polished or oiled, and was brought from Sweden prepared to be put together upon the grounds. The most singular part of it is that it is impossible, on the exterior, to discover a nail or screw. The boards are beveled and so joined together that no seams are visible. It is intended to keep school there during the Summer; genuine Swedish youths of both sexes, with teachers, will be brought over for that purpose.

Michigan State Building, Centennial Exposition, Philadelphia. In the absence of any appropriation from the State, this building was erected mainly through the exertions of the Michigan State Centennial Board and Julius Hesse, the architect at a cost of about $15,000. It is constructed entirely of Michigan lumber, above the foundation. The inside as well as the outside of the building is highly decorative. The walls and ceilings inside the building are paneled, no plastering being used, and the floors of several rooms are inlaid to neat patterns.

and an annual payment of $30,000 a year for fifty years.

Steamer Cleopatra seized by the United States authorities in New York, on suspicion of preparing to invade Cuba, and many respectable gentlemen arrested on the same charge.

Louis Kossuth, the Hungarian patriot, arrives in New York.

July 4.—President laid the corner-stone for additional buildings to the National Capitol.

August.—Lopez's second expedition to Cuba. He sailed from New Orleans with about 480 men. He left Colonel Crittenden, with 100 men, on the northern coast of Cuba, who were captured, carried to Havana, and on the 16th were shot. Lopez and six of his followers were captured and executed on the 1st of September.

Oct.—Return of the Grinnell expedition from the search of Sir John Franklin, without accomplishing its object.

Dec. 24.—Capitol at Washington partly destroyed by fire.

1852.

United States expedition to Japan, under command of Commodore Perry, a brother of the hero of Lake Erie.

June 29. Henry Clay dies in Washington, aged 75 years.

Oct. 24. Daniel Webster dies.

Nov Spanish authorities at Havana refuse to receive the United States mails and passengers from the American steamship Crescent City, plying between New York and New Orleans.

England and France propose a treaty with the United States, binding the latter to disclaim "now and forever hereafter all intention to obtain possession of the island of Cuba," and "to discountenance all such attempts to that effect on the part of any power or individual whatever." The treaty was rejected by the United States.

1853.

March 2.—Washington territory created out of the northern part of Oregon.

March 4.—Franklin Pearce inaugurated President.

May.—Second expedition leaves in search of Sir John Franklin, under the command of Dr. E. K. Kane.

Four vessels, under Captain Ringgold, leave on an exploring expedition to the Northern Pacific Ocean.

Four expeditions start to explore as many different routes for a railway to the Pacific coast. One under Capt. Gunnison was attacked by the Indians, and Gunnison and several of his party were killed.

July 2.—Capt. Ingraham upholds the rights of American citizenship. Martin Kaszta, while in business at Smyrna, was seized by order of the Austrian consul, and taken on board of an Austrian brig as a rebel refugee, notwithstanding he had proclaimed allegiance to the United States. Capt. Ingraham claimed Koszta as an American citizen, and on the refusal of the Austrian authorities to give up the prisoner, Ingraham cleared his vessel for action, and threatened to fire on the brig, if he was not delivered up within a given time. The Austrians yielded, and Koszta was placed in the custody of the French consul to

Post Office, Custom House and Court House, Cincinnati, O.—Occupies one-half of the square bounded by Fifth, Sixth, Main and Walnut streets. The exterior walls are to be of Granite, the basement and stylobate from the Red Granite quarries of Middlebrook, Mo The building will be 354 by 164 feet, four stories in height above ground, exclusive of the attics and roof stories. To complete this building will cost, exclusive of the site, nearly $3,000,000.

The World Outdone!

Davis' Inflammatory Extirpator.

This is the most perfect, safe and efficacious remedy ever offered to the public for the cure of Coughs, Asthma, Consumption, Kidney and Urinary Diseases, Neuralgia, Dyspepsia, Costiveness, Loss of Appetite, Rheumatism, Spinal Disease, Colds, Headache, Earache, Sprains, Croup, Sore Throat, Prolapsus Uteri, and all kinds of sores. As soon as applied it almost miraculously kills the pain. This preparation is not the mere creature of an old recipe, gotten up without knowledge or skill, but is the result of long study, and is only offered to the public after having used in private practice for sixteen years; and after testing it in a thousand of the above diseases, we have offered it for sale, and during the first year more than two hundred thousand bottles were sold for cash without advertising.

READ THE FOLLOWING FACTS!

While introducing this Wonderful Remedy in New England I cured more than the following number of persons, and sold more than the number of bottles of medicine, and all cures performed in open air.

In Providence, R. I., 63,000 Bottles and 4,000 Cures!
In Worcester, Mass., 17,000 " " 1,200 "
In Boston, Mass., 80,000 " " 4,000 "

and these were mostly done in front old State House on State street. In Brattleboro, Vt., 26,000 bottles sold and 2,000 cures. In New Fane, Vt., in three days 800 bottles and 200 cures (among which were 68 cases Diphtheria and Sore Throat), the greatest wonder of the age. In Fitchburg, Mass., 589 bottles and 360 cures in one day. In Springfield, Mass., 6,000 bottles and 3,000 cures (among which was more than 400 cases of Western Sore Eyes). These statements are facts.

1768.

First Methodist church in America built in New York.

May.—Commissioners of Customs, to collect duties, arrive in Boston. They are regarded with much contempt, and it was difficult to restrain the excitable portion of the population from committing personal violence.

June.—Arrival of sloop Liberty, at Boston, belonging to John Hancock (one of the signers of the Declaration of Independence), with a cargo of Madeira wine. The Commissioners demanded duties. It was refused, and they seized the vessel. The news spread over Boston, and the people resolved on resistance. The Commissioners were assailed by a mob, their houses damaged; and they were obliged to seek safety in Castle William, a small fortress about 3 miles S. E. from Boston.

Sept. 27.—British troops land in Boston, 700 strong, and with drums beating and colors flying, they marched to the Common.

1769.

Jan. 26. British Parliament passes a bill requiring the arrest of offenders against the government to be sent to England for trial.

Dartmouth College, New Hampshire, received its charter. It was named from the Earl of Dartmouth, its benefactor.

American Philosophical Society, at Philadelphia, founded.

1770.

March 5.—Boston Massacre. A ropemaker quarreled with a soldier (March 2), and struck him. From this a fight ensued between several soldiers and rope-makers, in which the latter were beaten. A few evenings afterward (March 5), about 700 excited inhabitants assembled in the streets for the purpose of attacking the soldiers. A sentinel was attacked near the Custom House, when Captain Preston, commander of the guard, went to his rescue, with eight armed men. Irritated and assailed by the mob, the soldiers fired upon the citizens, killed three and dangerously wounded five. The mob instantly retreated, when all the bells of the city rang an alarm, and in less than an hour several thousand exasperated citizens were on the streets. Gov. Hutchinson assured the people that justice would be done in the morning, and thus prevented further bloodshed. Capt. Preston and six of his men were tried and acquitted by a Boston jury. Two other soldiers were found guilty of manslaughter, and the troops were removed to Castle William.

April 12.—All duties except on tea repealed.

Sept. 30.—George Whitefield, founder of the Calvinistic Methodists, died, aged 56 years.

1771.

Regulators formed in North Carolina to resist British taxation and oppression. In 1768 the people of North Carolina were taxed $75,000 by Gov. Tryon to build him a house at Newbern.

May 16.—The Regulators subdued and dispersed by Gov. Tryon, after hanging six of the leaders.

1772.

June 9.—Destruction of the British armed schooner Gaspe. This vessel was stationed in Narragansett Bay to assist the Com-

Warranted to run within six minutes a month.

WADSWORTH'S PATENT ELLIPTIC

Watch Case Spring,

Patented March 2d, 1875, by C. W. Wadsworth, Peekskill, N. Y.

Accomplished at Last—the Best and Most Serviceable Spring ever Introduced in the Market.

Each holder is accurately fitted to the Case, and in a few minutes the Spring can be adjusted. The Spring works evenly from end to end, and without strain or wear to the most delicate Case.

The Spring is made of the

Finest Steel, Drawn and Rolled Hard,

which gives it SUFFICIENT TEMPER, and is so adjusted to the holder that it

Retains its Elasticity, and is not Liable to Break.

THE ELLIPTIC SPRING

IS SUPERIOR TO ALL OTHERS, because it can be adjusted to the Case without drilling new holes, as is frequently done with the old Springs.

The Springs are numbered 1, 2, 3 and 4, and will fit nearly every size of case in use. They are assorted in boxes containing one dozen Springs.

Mount Vernon, Home of Washington, is situated about sixteen miles down the Potomac from Washington, D. C. The mansion fronts the river. The center was built by Lawrence Washington, half-brother of the President, from whom he inherited the estate. The more modern portions were constructed by the General. Here are deposited the remains of George and Martha Washington. The Ladies' Mt. Vernon Association own the mansion and contiguous ground. Their endeavor is to restore them to the same condition they were in during the life of Washington.

ESTABLISHED IN 1835.

THE OLD LA CROIX

Private Infirmary,

On the French System,

No. 5 Beaver Street, Albany, N. Y.

FOR THE TREATMENT OF CHRONIC AND PRIMARY SEXUAL DISEASES.

In Syphilis, Gonorrhœa, Gleet, Strictures, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin bones, and all other impurities of the System are perfectly under the control of the doctor's medicines, and have been tested with immense success.

Young men addicted to secret habits who have impaired their strength and destroyed the vigor of their minds, thus depriving themselves of the pleasure of married life, are notified that in consulting the Dr. they will find a friend to console, and a Physician who has cured thousands in almost every part of the United States.

☞ Special attention paid to all affections peculiar to Females, such as Nervous and General Debility, Depression of Spirits, Headache, Dizziness, Weakness of Back, Suppression, Scalding and Incontinence of Urine, Leuchorrhœa, Prolapsus Uteri, and the many difficulties to which Females are liable. Those who apply in the early stages of disease are surprised at the little inconvenience and rapidity attending the cure.

Ladies will find rooms provided for their especial accommodation and entirely private.

☞ Call or address,

G. E. CHADSEY, M.D.,
No. 5 BEAVER ST., Albany, N. Y

Marble and Granite

WORKS,

283 & 285 Hudson Avenue,

ALBANY, N. Y.

Monuments, Headstones, Marble and Slate Mantels, Table Tops, Plumbers' Slabs, Tileing, &c., &c.

Cemetery Work of all kinds attended to on short notice.

1563.

Potatoes first brought to England from America, by Hawkins, and introduced into Ireland in the year 1586, by Sir Walter Raleigh.

1572.

Modern masks and muffs, fans, false hair for women, were devised by the harlots of Italy, and brought to England from France.

1584.

Sir Walter Raleigh obtains a patent for making discoveries. Amidas and Barlow, in command of two ships, by order of Raleigh, landed on Wocoman and Roanoke. The country was taken possession of for the crown of England and named Virginia, in honor of the virgin Queen.

1585.

Sir Richard Grenville was sent with seven vessels and 107 men to settle Virginia. They settled at Roanoke in charge of Governor Lane, but returned to England the following year.

1586.

Sir Grenville left a second colony at Roanake, which was destroyed by the Indians.

1587.

A third colony of 115 persons, under Gov. White, was left at Roanoke. Gov. White returned to England for supplies and additional number of colonists, but when he arrived at Roanoke, three years after he found no Englishman. It was evident they had been slain by the Indians or perished from hunger. The last adventurers were disheartened, and Gov. White returned to England.

Virginia Dare born—the first child of Christian parents born in the United States.

1602.

Bartholomew Gosnald sailed to America, named Cape Cod, discovered Martha's Vineyard and the adjacent islands; built a fort and store-house, but returned to England the same year.

1607.

Captain Newport arrived in Virginia, and began the first permanent British settlement in North America, at Jamestown, Virginia.

1608.

Chesapeake Bay first explored by Captain John Smith.

Canada settled by the French. Quebec founded July 3d.

John Laydon married to Ann Burras—the first christian marriage in Virginia, and in the United States.

1610.

Capt. Henry Hudson, an Englishman, in the service of the Dutch, discovers the Manhattan, now Hudson river.

Starving time in Virginia—of nearly 500 colonists, all perished but sixty in the course of six months.

1611.

Champlain, a Frenchman, discovered the lake which now bears his name.

1613.

Rolfe, an Englishman, married Pocahontas, daughter of Powhattan, the Indian King.

New York settled by the Dutch. The island where New York city now stands was purchased from the Manhattan Indians for $24.

Penn's Treaty with the Indians.—Although historians differ as to the precise locality where the treaty took place between William Penn and the Indians, it is generally conceded to have occurred under the great elm tree at Shackamaxon in the vicinity of Penn Hall in the year 1682. This treaty was never broken for a period of forty or fifty years, and during all that time the scalping knife and tomahawk were sheathed in peace with the white men of Penn's treaty.

A. D.

1606. and all his family, whom he cruelly put to death; his imposition being discovered, he was assassinated in his palace.

1611. 200,000 persons perished of a pestilence at Constantinople.

1619. Harvey discovers or confirms the circulation of the blood.

1620. Battle of Prague between the Imperialists and Bohemians of Germany. The latter, who had chosen Frederic V. of the Palatine for their king, were totally defeated. The unfortunate king was forced to flee with his family into Holland, leaving all his baggage and money behind him. He was deprived of the hereditary dominions, and the Protestant interest ruined in Bohemia.

1624 George Fox born, the founder of the society of Friends or Quakers. He was clad in a perennial suit of leather, and wandered in solitude, seeking some light to guide him, studying the Bible and himself. He died in 1690.

1628. The discovery of the circulation of the blood by Dr. Harvey furnished an entirely new system of physiological and pathological speculation.

1629 St. Peter's Church at Rome completed, having been commenced about the middle of the 15th century.

1632. Battle of Lutzengen, or Lutze. Called also the battle of Lippstadt. In this battle Gustavus Adolphus, king of Sweden, the most illustrious hero of his time, and the chief support of the Protestant religion in Germany, and in alliance with Charles I. of England, was foully killed in the moment of victory.

1643. The art of preserving flowers in sand discovered.

1647. The tyranny of the Spaniards leads to an insurrection at Naples, excited by Maraniello, a fisherman, who in fifteen days raises an army of 200,000 men. The insurrection subsides, and Maraniello is murdered.

1648. Eighty-one Presbyterians expelled from the English Parliament, which received the name of the "Rump."

1650. Quakers or Friends. Originally called Seekers, from their seeking the truth. Justice Bennett, of Derby, gave the society the name of Quakers at this time, because Fox (the founder) admonished him and those present with him to tremble at the word of the Lord.

1652 First war between the English and the Dutch.

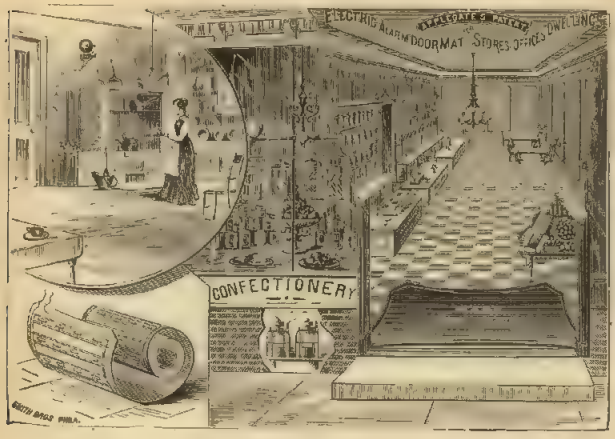
TRUSSES AND SUPPORTERS.

Dr. L. T. LUBIN,

Trusses & Supporters,

80 TREMONT ST.



Cannot be Stepped Over; is Made any Size.

One quarter inch thick; adapted to any floor; as easily handled as an ordinary mat.

Is Attached and Detached Instantly.

The battery in cellar requires attention only once a year, which is to apply one stick of zinc and six ounces sal ammoniac, and fill the jars with water. Running expenses merely nominal. Alarm is regulated by the switch, as shown in cut below the bell, which, when the mat is stepped upon, gives the single tap, the vibration alarm, or not at all, as desired. If the mat is lifted or tampered with, the alarm sounds the same, which is placed in any desired part of building.

FOR THE PROTECTION OF RESIDENCES

It is found most serviceable for that prolific class, sneak thieves. It may be placed inside the vestibule door, any depth, and across any width hall, beneath the carpet, secure from observation—is no thicker than padding. With this invention it is not required to lock the door during the day; it may also stand open for ventilation with all safety. The mat combination, which includes thirty square feet, or less, two cells, largest size of the celebrated Leclanché battery, one four-inch alarm bell, the required amount of insulated wire, &c., applied to building complete,

PRICE, - - - - - - - $30.00.

Each additional square foot, or additional mat, per foot, 36 cents. For a trifling additional expense the same apparatus can be attached to each exposed window and door. Send stamp for descriptive circular. General agents wanted.

Home office Electric Alarm Door Mat,

S. S. APPLEGATE,

Patentee and Manufacturer,

39 Broadway, Camden, N. J.

City Hall, Louisville, Ky.—This building at present covers an area of 200 feet on Sixth street and 100 feet on Jefferson but it is designed in the future to extend the front on Jefferson street about 150 feet, covering the space now occupied by the Jail and Engine House, and thus complete the principal facade, which it is intended shall front on Jefferson street, the present completed portion being that of a pavilion to the entire building As it is now occupied, the building cost about $460,000 This building was commenced on the 14th day of August, 1870, and was completed and occupied in the early part of 1873, its architecture is that of the Italian Rennaissance.

MRS. M. A. KILGOUR,

offers her new improved *Elastic Bandage or Abdominal Supporter*, for the relief of Maternity. Weakness from this cause thousands of ladies who have never consulted themselves as to aspects of medical or surgical treatment, welcome this supporter for its simple construction, easy fit, support, and strength, and comfort it gives. Doctors ladies welcome this supporter because they see the only kind of appliance that combines in one all the requisites to be found in any other supporter. In fact it is the nearest approach to perfection for the relief and cure of ... female weakness and ... that has yet been introduced. All important points necessary in a suitable abdominal bandage are to be found in this supporter. Adjusted by persons themselves in a few minutes, it is always ready for use, and will last for years. It so strengthens and supports the body that upon some occasions even the fat grow thin without ... Supporters sent on ... with ... attachments ... the ... requires, from Two to Five Dollars ... and warranted. Manufactured by M. A. Kilgour & Co., 25 Winter St., Boston.

State Capitol, Montpelier, Vt.—The building stands on an elevated site about 325 feet North of State street, on which it fronts about 35 feet. It is in the form of a cross, fronting 86 feet 4 inches, ornamented with a portico, supported by six columns, six feet in diameter. The whole length of the building, including centre and wings, covers a space of 188 feet and 4 inches. The former State House was finished in 1838, and was destroyed by fire January 6, 1857. The present building was completed October 13, 1859, at a total cost, including furnishing, and $2,000 for a statue of Ethan Allen, of $148,396.63, of which sum $44,446.82 was given by the citizens of Monpelier, and the balance of the total amount was paid by the State.

Aug. 23.—Commodore Perry dies in the West Indies.

Dec.—Alabama admitted as a State.

1820.

Napoleon Murat, nephew of Napoleon I., arrived in the United States. He was of a scientific turn of mind, and took great interest in our educational institutions. He married a grand niece of George Washington, and died in Tallahassee, in 1847.

Fourth census of the United States. Population 9,638,190. National debt, $89,987,427.

Maine admitted as a State.

James Monroe re-elected President.

First mariner's church erected in New York.

March 22.—Stephen Decatur, an American Naval officer, was killed in a duel with Commodore Barron

1821.

Aug. 21.—Missouri admitted as a State, with the famous "compromise," under which it was resolved that in future no slave State should be erected north of the northern boundary of Arkansas.

Streets of Baltimore lighted with gas.

1822.

Conspiracy of the blacks at Charleston, S. C. The blacks of Charleston had arranged an extensive plot for the indiscriminate massacre of the whites on the night of the 16th of June. This information was conveyed to the Governor, who had the city patrolled on that night with a large military force. The conspirators finding this the case, no revolt was attempted. About 131 of the conspirators were afterwards arrested; 35 of them were executed; 51 acquitted, and the rest were sentenced to be transported.

March 19.—The independence of the South American Government acknowledged by the United States.

Piracy in the West Indies suppressed by the United States.

Boston, Mass., incorporated as a city.

March 8. United States acknowledges the independence of South America.

PARTRIDGE & RICHARDSON,

(Well Known as the "Bee Hive.") *17 N. 8th St., above Market, Phila., Pa.*

Patent Office, Washington, D. C.—The Patent Office covers two squares from 7th to 9th streets, and from F to G streets, northwest. It measures 410 feet from east to west, and 275 feet from north to south. The building was commenced in 1837, and was not entirely completed, as it now stands, until 1864. It cost $2,700,000. In this building are many articles which belonged to Gen. Washington, possessing historical interest, and here is to be seen the original Declaration of Independence. Here, also, are on exhibition all the models of every patent issued since 1836. Those issued prior to that time were destroyed by fire in the destruction of the old building. Those destroyed were the accumulation of 36 years.

PHILADELPHIA, PA.

City Hall, Pittsburg, Pennsylvania.—The building fronts on Smithfield street, near Fifth Avenue, facing eastward. The building has a frontage of 120 feet and is 110 feet deep, the main walls are 72 feet high, the extreme height of the tower is 175 feet, with a large clock in the observatory. On the 23d day of May, 1872, the building was dedicated with appropriate ceremonies, and the city government thereupon took permanent possession. The total cost of the building and grounds, $600,579.

Poughkeepsie Female Academy,

Rev. P. G. Wright, S. T. P., Rector.

The **This School** is in the beautiful city of Poughkeepsie, midway between Albany and New York. For ease of access, by rail[illegible] and steamboat; for healthfulness of climate, both in Summer and Winter; for literary and refined society, and numerous educational, moral and religious institutions, the location is unsurpassed in this country.

The Buildings are ample and commodious. The rooms are large, well ventilated, lighted by gas and furnished with regard to taste, convenience and comfort. In the Laboratory is an extensive Philosophical and Chemical apparatus. A spacious Gymnasium, properly furnished, is connected with the other buildings.

The Course of Studies is arranged in two Departments—Academic and Collegiate. In the former pupils are trained to Spelling, Reading, Writing, Arithmetic, Geography, Grammar, History of the United States, Map Drawing and Composition. In the latter the course is designed for FOUR YEARS, and embraces Ancient and Modern History, Rhetoric, the Higher Mathematics, the Natural Sciences, Mental and Moral Philosophy, Logic, English Literature, Kames' Elements of Criticism, Butler's Analogy, the Fine Arts, and the Literature of the French, German and Latin Languages. The completion of this Course, or its equivalent, entitles the student to a Diploma.

In both Academic and Collegiate Departments much attention is given to Composition, Elocution and Penmanship.

Languages.—An accomplished English education, as it is of the first importance, is here given the preference; but when pupils are sufficiently advanced they are urged to enrich their minds with the treasures of the Latin tongue; also, the German and French. The latter is in charge of a French gentleman of [illegible] accomplishments and many years experience, who not only secures the most rapid progress in the class room, but meets them daily at table and thus seeks intercourse. German is also taught by a native Teacher.

Music.—In this Department, both instrumental and vocal,—as in every other, there is nothing superficial; the aim being to impart a thorough knowledge of the science. A study of the old masters, as well as the most classical composers of modern times, is continually inculcated upon the more advanced pupils, for the development of a scholarly taste.

☞ Parents desirous of having their Daughters enter the Collegiate Department of Vassar College will here find every facility for a thorough preparation. Reference is made to President RAYMOND respecting the qualifications of those who have gone to that institution from the Academy.

DOMESTIC DEPARTMENT.

Careful attention is paid by MRS. WRIGHT to the HEALTH of pupils; and, as Matron, she endeavors to act a mother's part towards those entrusted to her care. The table is always plentifully supplied with THE BEST the market affords; and every effort is made to make this not only a FIRST-CLASS SCHOOL, but also a pleasant, happy HOME for girls while being trained for life's work.

Government is parental. The manners and habits of pupils are vigilantly supervised by all who have charge of either Academic or Domestic Departments. A conscientious regard for right is cherished in the minds of the pupils; each one reporting daily her observance of the rules.

UNNECESSARY EXPENSES

A large part of the expenses of many young ladies at school is entirely unnecessary; and, what is worse, decidedly detrimental both to themselves and their mates and a source of great trouble to their teachers. As to dress, we would have our pupils "adorn themselves with modest apparel," not with "gold or pearls, or costly array." Let the whole school outfit be characterized by simplicity, freedom, comfort and perfect neatness. Good taste requires this, health and the interests of the institution require it. School is not the place to exhibit expensive dresses or frequent changes.

☞ For Terms, References, etc., address, **THE RECTOR, Poughkeepsie, N. Y.**

Court House, Bay City, Michigan.

State Capitol, Albany, N. Y. The building has a front of 290 feet, with a depth of 380; height, 140 feet. It has eight towers 250 feet each, and one main tower 365 feet high from its foundation. The walls of the foundation are laid upon a bed of concrete, four feet in depth, making an artificial rock floor four feet thick, over a surface of three acres, for the foundation. The whole building covers an area of three acres. It is not yet complete, and will probably cost $10,000,000 when finished.

The Washington Elm, Cambridge, Massachusetts. Not far from the college grounds stands one of the famous trees of the country—the Washington Elm—the only known survivor of the ancient forest that originally covered this part of Cambridge. It was under this tree that General George Washington took command of the Continental army, on the morning of July 3, 1775. A neat fence surrounds this giant of the ancient forests, and an inscription commemorates the important event, which was the most interesting in its centuries of existence.

United States Capitol, Washington, D. C. The corner-stone of the Capitol was laid with Masonic ceremonies September 18, 1793, by Master Mason, George Washington, President of the United States. In 1814 the British burned out the two wings. The space now occupied by the Rotunda up to that period, was only a wooden scaffolding, which united the two portions of the building. The foundation of the present Rotunda was laid March 2, 1818, and was considered finished in 1827. The corner stone of the extension was laid July 4, 1851. The cost of the Capitol, up to the present time, has been $13,000,000. The whole Capitol covers an area of three and a half acres.

1683.

The Governor of Virginia ordered that no printing press should be used in that colony, "on any occasion whatever."

1686.

First Episcopal Society formed in Boston.

Port Royal, Carolina, broken up by the Spaniards from St. Augustine.

1687.

Charter of Connecticut hid from Andros, in a hollow oak, and saved.

M. de la Salle, the discoverer of Louisiana, killed by his own men in mutiny.

1688.

New York and the Jerseys added to the jurisdiction of New England.

Andros appointed Captain-General and Vice-Admiral over the whole.

Opposition to Andros' administration in Massachusetts.

1689.

Williams and Mary proclaimed in the colonies. Andros is siezed and sent a prisoner to England.

1690.

Bills of credit issued by the government of Massachusetts, the first ever issued in the American colonies.

A body of French and Indians from Montreal burn Schnectady, and massacre the inhabitants, February 8.

Port Royal taken by Sir William Phipps; he makes an expedition against Quebec, but is unsuccessful.

1691.

Major Schuyler, with a party of Mohawks, attacks the French settlements on Lake Champlain.

The Assembly of Virginia obtain of the crown the charter of William and Mary College, so named from the English sovereigns.

1692.

Nineteen persons executed for witchcraft in Massachusetts.

Edmund Andros, the tyrant of New England, made governor of Virginia.

Sir William Phillips arrived as governor of Massachusetts under the new charter.

1694.

Legislature of Massachusetts caused the names of drunkards, in several towns, to be posted up in public houses, and imposed a fine for giving them entertainment.

1698.

Seat of government in Virginia removed to Williamsburg, the streets of which were laid out in the form of a W, in honor of the reigning King of England, William.

1699.

Assembly of Maryland removed to Annapolis.

1700.

Legislature of New York made a law to hang every Papish priest who should come into the the province.

Two hundred and sixty-two thousand inhabitants in the American colonies at the beginning of this century.

Carolina infested with pirates.

Post Office Department, Washington, D. C.—The building occupies the whole square between Seventh and Eighth and E and F streets, North-west, and is opposite the Patent Office. It is built of white marble. It measures 300 feet North and South, and 204 feet East and West. It cost up to 1876, $1,855,889.59. A portion of the present site was originally intended for a hotel, the corner stone for which was laid in 1793, but failing to complete the building, it was put up at lottery and drawn by two orphan children. It was here the first theatrical entertainment was given in Washington. In 1810 it was bought by the Government. December 15, 1836, it was destroyed by fire, and in 1839 the erection of the present building was commenced.

Mississippi State Building.—This building has a front of 40 feet with a depth of 36, two stories high. The outside of the building is covered entirely with hickory bark, interspersed with panels laid in diagonal style. The roof is tin and the eaves are draped with hill moss from the State of Mississippi. There are 68 different varieties of wood used in the building, all from the State it represents. It has four rooms, two for the use of male visitors, and two for ladies—one for a ladies' parlor and the other a dressing-room.

USE

BEWARE OF **Counterfeits.**

BEWARE OF **Counterfeits.**

FOR YOUR COUGH; THEY WILL CURE IT.

Use SLIPPERY ELM LOZENGES if you are Hoarse! they will restore your voice.
Use SLIPPERY ELM LOZENGES for all Throat Affections.

In calling your attention to Slippery Elm Lozenges we hope you will indulge us to the extent of reading this Circular, and in reading, believe, and in believing, we sincerely hope you will try Slippery Elm Lozenges. After once trying them, we do not doubt that you will endorse and adopt them as your family medicine for all afflictions for which they are intended, such as Coughs, Colds, Hoarseness, Loss of Voice, Inflammation and Irritation of the Throat and Larynx, Bronchitis, Pulmonary Catarrh, Canker, Difficult Expectoration and all direct or indirect affections of the throat. Consumptives will find them a grateful palliative, soothing and healing, and in that way a great help to the action of the more positive medicines which their physicians prescribe. Their use will not interfere with any diet or medicine. When you are troubled with any of the above-named difficulties, be sure and use them freely. When traveling going to church, the concert or lecture room, don't fail to have them with you, and then and there use them, for the relief it will afford yourself and others. Always have them by your bedside. Two or three Lozenges when you retire will stop your Cough, and you will have a quiet and natural rest. The effect of them will astonish you, so harmless and simple in their nature and yet so sure to afford relief. ESPECIALLY ARE THEY ADAPTED TO CHILDREN! Don't forget that.

Your little ones should be cared for anxiously; they are subject to a thousand ills, and need constant watching. In a majority of their ailments, Slippery Elm Lozenges you will find the most admirable thing you can give them. Don't dose them to sickness and death with Squills, Ipecac, Antimonials, Bloodroot, Lobelia or Opiates, unless they are sick enough to need your family physician; but instead, give them Slippery Elm Lozenges in abundance. Don't be afraid of them; they contain no Opiates, Narcotics, Sedatives or Anodynes—they are simply demulcent and nutritious, and through these mediums wonderfully curative.

In conclusion, we will say that we earnestly hope that all public speakers, ministers, lecturers, senators, representatives, actors, singers and orators, salesmen, and all persons whose calling in life requires a constant tax upon the voice, will give Slippery Elm Lozenges a faithful and thorough trial. By doing so they will confer a great favor upon themselves, and render to us a just and deserved tribute for our enterprise.

JOHN PATTEN & SON, Proprietors.

The Home of Washington's Ancestors.—The Manor House, Sulgrave, Northamptonshire, which was held of the Priory of St. Andrew, was surrendered to the Crown upon the dissolution of the monasteries, and in the 30th of Henry VIII. (1529) it was granted to Lawrence Washington, gent, of Northampton. Robert Washington, his son and heir, conjointly with his eldest son, Lawrence, sold the manor in 1610 to Lawrence Makepeace, gent, of the Inner Temple, London. Lawrence Washington, after the sale of his estate, retired to Brington, where he died, and his second son, John Washington, emigrated to America about the middle of the 17th century, and was grandfather of the great American patriot and father of his country, George Washington.—[Extract from Wm. W. Nellan & Co.'s History of Northamptonshire.]

Carpenters' Hall, Philadelphia.—The hall is situated on Chestnut street, a few paces east from Fourth, Philadelphia. On the 5th of September, 1774, the first Continental Congress met in this hall, and began their deliberations, which resulted in the Declaration of Independence, July 4th, 1776. The building is owned by the Carpenters' Company, of Philadelphia, an organization which has maintained its existence since 1724 up to the present time. The hall was built in the year 1771

E. B. CHASE, Manager.

Court House, St. Louis, Missouri.—Is situated on the square bounded by Fourth, Fifth, Chestnut and Market streets. The building was commenced in 1826, to the original structure additions were made in 1839, and the building as it now appears was not completed until 1862. The design of the edifice, which is modeled after the form of a Greek cross, includes an iron dome of fine proportions; from the summit of the dome, to which ascends an iron staircase, one gains a magnificent view far up and down the river, over church spires, parks, gardens, &c.

THE PACIFIC

Fruit & Vegetable Evaporator

COMBINES SIMPLICITY, DURABILITY AND EFFICIENCY.

It is equally adapted to either

FARM OR FACTORY PURPOSES,

And will DRY MORE FRUIT, WITH LESS LABOR AND LESS FUEL, than any other Dryer or Evaporator yet invented. The price and capacity are governed by the size of the Dryers, ranging from $50 to $1,000, with a corresponding capacity of from 15 to 600 bushels per day.

It is the only Fruit and Vegetable Dryer that is built upon scientific principles, and it challenges comparison. It was

AWARDED A MEDAL AND DIPLOMA

At the Centennial International Exhibition, at Phila.,

And the highest award at the N. Y. State Fair at Rochester, in 1876.

Address,
